DESCRIPTION

Control your desktop or notebook even better then before. Use the EM3187 Blue LED Mouse Slim Wireless on virtually every surface.

Slim design with rubber coating
The rubber coating gives you a good grip on your mouse. Besides this, the mouse has a very slim design, it's just 24mm high! This enables you to carry the mouse with you while traveling with your laptop bag.

Blue LED technology
Enjoy better movement and excellent performance with Blue LED technology. The blue LED inside the mouse has greater illumination and is less sensitive to dust. This enables you to use the mouse on virtually any surface.

Plug in and use
Just plug the USB nano receiver into an available USB port on your computer. Insert the enclosed batteries into the mouse and it will connect to your computer immediately. You can use the mouse on all common operating systems, like Windows, Mac OSX and Linux.

Optical precision, scroll wheel and nano receiver
You can now enjoy optical precision with 800 or 1600 dpi. Fitted with two buttons and a scroll wheel, the mouse supports all common functions. While traveling, the ultra small nano receiver can be stored in the bottom side of the mouse. Use the on/off switch to save power
